

Dear Sir/Madam,

Please find below the testimonial for my SizeGenetics device. Also enclosed are some before and after pictures as well as the original invoice for my SizeGenetics device. Please note that my address has now changed from that on the invoice. Therefore, (without trying to sound too mercenary) please make out my testimonial refund cheque to:

As this is quite a large email with the photo attachments, can you drop me a quick reply so I know it's got through ok?

Thank you for all your help during my use of the SizeGenetics device and I hope you find my testimonial of use.

Yours faithfully,

Luke [REDACTED]

The following testimonial contains actual **before and after images** of Luke's penis enlargement success.

## Testimonial

As I've always been reasonably happy with the size and performance of what I considered my happily average sized penis; so I ended up buying the SizeGenetics device on a whim. True, not the cheapest whim I've ever had, but I was convinced by the 6 month guarantee and other testimonials I'd read on the site. Im pleased to say I wasn't disappointed!

After experiencing a slight glitch in the ordering process from my end, the team at SizeGenetics led me through the ordering system over the phone and answered all the queries I had quickly and professionally. As a special touch, they even bumped me up a delivery class so I could receive my device the very next day to make up for any inconvenience.

The instructional DVD made it remarkably easy to correctly size and put on the device; whilst wearing it for a few hours at a time was easy and comfortable enough to the point where I'd often forgot I had it on. The first effects I noticed was that my erections seemed a lot firmer and even my girlfriend commented on how rock hard I now seemed. Coupled with that, my staying power has increased as well; so much so that my girlfriend typically now has three orgasms to each one of mine. Not bad for a fairly unobtrusive device!

Due to changes in my personal and work life I wasn't able to use my SizeGenetics device for as long a stretch as I'd have liked to initially and it fell out of use for a while. Although I'm pleased to say I feel the gains I've made seem to have remained. I'm equally glad to say that I've just started to use the device again and have started to notice the signs of an increase in length and girth that I'd seen previously . All I can think of is where would I be now if I hadn't taken that break?!

As I said before, I've always been fairly happy with the size and performance abilities of my penis, but thanks to SizeGenetics I'm now ecstatic.

Luke, London.
